Full Stack Web Development

Isdi Coders | 2023-2024

Advanced Technician in Dietetics and Nutrition

CCC Centros de Estudios Profesionales | 20018-2020

ABOUT ME

Frontend Developer specializing in creating intuitive and engaging web interfaces. Proficient in **HTML5, CSS3, JavaScript (ES6+), React, and Vue.js**, with a focus on responsive and accessible design. I utilize tools like **Tailwind CSS, Bootstrap, and Sass** for clean and efficient styling. Passionate about continuous learning and committed to delivering quality projects. Currently seeking new opportunities and challenging projects to further grow as a developer.

EXPERIENCE

Freelance Projects | May 2023 - Present

- Development of dynamic and scalable web interfaces using **React and Vue.js** to optimize the user experience.
- Interface design and prototyping in **Figma**, creating intuitive and visually appealing user flows.
- Implementation of responsive and adaptable styles using **Tailwind CSS**, ensuring compatibility across multiple devices and browsers.
- Integration of **RESTful APIs** and data consumption via **Fetch API**, optimizing communication between frontend and backend.
- Execution of unit and integration tests on frontend components to maintain quality and performance standards.
- Project management using **Scrum methodologies**, coordinating frontend development from planning to deployment while ensuring deadlines and quality standards are met.
- Continuous maintenance and optimization of applications, with a focus on improving interface efficiency and scalability.

ADDITIONAL SKILLS

- Team Leadership and Collaboration in Agile Environments
- Creative Problem-Solving and Fast Learning
- Efficient Project Management and Deadline Adherence
- Strong Attention to Detail and Commitment to Quality
